AUTO HITS TRAIN, FIFIELD KILLED

A man identified as Dean N. Fifield of 7525 Sunset Boulevard was instantly killed early this morning when the automobile he was driving crashed into the rear end of a standing Pacific Electric freight train at the intersection of Highland avenue and Santa Monica Boulevard. The body was removed to the Strother & Dayton undertaking establishment in Hollywood. Fifield, according to a police report, is a director of the new Hollywood Theater. According to the chief dispatcher of the Pacific Electric, witnesses stated Fifield was driving on Highland avenue at a high rate of conductor 1. C. Bowels and Motor W. J. Spier, was standing on Santa Monica Boulevard, the rear end extending partly onto the intersection. The automobile was completely demolished, Hollywood police reported.

AUTO WRECKED; DRIVER ESCAPES

Goran Johanson of 1814 South Grand avenue, narrowly escaped death early this morning when the automobile in which he was riding leaped a steep embankment on North Alpine street and plunged, turning over and over, 150 feet below to the rear of 668 Bishop Road. When given emergency treatment at the Receiving Hospital it was found that he had merely suffered painful bruises. The machine was a total wreck. A. P. Trego took the injured man to the hospital. Johanson told Detectives Adams and Davis of the police flying squad that at the time of the accident one man and two women were with him in his car. The detectives were unable to find them at the scene of the accident.

The work of the statute, and wages are exception to any of the statute, and wages are exception to the statute, and wages were exception to rates to wages. We have not done so and shall not do so. In fact, so far as the most recent rate out ordered by the Interstate Commerce Commission is concerned, I might say we already had reached a decision fixing the wages for one class of employees."

Chairman Hooper declined to may which class this is, but it is expected the decision will be announced soon.

Opposes Plan to Transfer Department Bureaus President Recommends Scheme Will Resign

Agricultural Editors' Body Fights Changes

WASHINGTON, May 28.—If
President Harding accepts and
sends to Congress recommendations of the government reorganisation commission transferring
the Bureau of Roads and the Bureau of Forestry to the Interior Depariment and the Bureau of Markets to the Department of Commerce. Secretary of Agriculture
Wallace, his associates declare, will
resign from the Cabinet in protest.
Officials of agricultural and farm
organizations who are mobilising
here to fight the recommendations
declared to be incorporated in the
reorganization report, asserted
that they have assurances from
Secretary Wallace's closest friends
that he will not wait for Congress
to act on the proposals to cut up
the Department of Agriculture, but
will submit his resignation as an
emphatic demonstration of his opposition to the plan and as part of
the organized effort to induce Congress not to permit the transfers.

POLITICAD EFFECT

NEW YORK, May 25. — The Association Against the Prohibition Amendment, said to have 300,000 members throughout the country, will do all in its power to defeat Representative Andrew Volstead in his race for re-election and to influence public opinion for the restoration of wines and beer, it was announced today.

The association will invade Volstead's district with a body of antidry speakers, round up the pre-wets and then tackle the political leaders. Similar tactics to those employed by the Anti-Salcon League with churches during the preprohibition era, by appealing to all the big fraternities and lodges in the country will be used.

JURY DEADLOCKED

ELL CENTRO, May 25.—At a late hour this afternoon the jury in the Breedlove murder case was deadlocked 5 to 6 for acquittal, according to Courthouse report. Earlier in the day the jury reported an agreement impossible and asked for dismissal, which the court refused. Breedlove was tried for murder in the first degree for killing Rex Samples here last February. The unwritten law figured in the defense.

NEW YORK, May 15.—By a decision of Supreme Court Justice Wagner today the trial of the di-verce suit brought by Geraldine Tellegen, actor, and his counter-claim for a separation, will be de-layed for about eight months long-er, unless the parties agree to have the case heard by a referes. Justice Wagner granted an ap-plication by counsel for Tellegen to strike the case from the general calendar of the Supreme Court where it occupied a position that might have resulted in a trial be-fore the adjournment of the trial term in June. Counsel for Telle-gen contended the case had been on the general calendar of the court improperly.

POPULACE GIVES APPROVAL TO HIS BETROTHAL TO PRINCESS

TOKIO, April 28.—(Delayed.)—
Popular approval of the betrothal of the Princes Regent and Princess Nagako Kuni will triumph over opposition to the match in certain foourt circles, according to present indications. It is expected the engagement will be formally announced within a few weeks with the marriage scheduled for December, 1923.

When the Home Department announced plans for the engagement last year, a bitter controversy arose over the point that the Princess is not a member of one of the nine noble families, which rendered her in the eyes of the conservatives ineligible to be the bride of the heigh to the throne. At the height of the argument, in which the people and theipress generally took the part of the Princess, Baron Nakamura, Minister of the Imperial Household, who had sponsored the engagement, resigned, leaving oppohents of the marriage temporarily at least in control of the situation.

WASHINGTON, May 25.—Secretary of State Hughes announced today that he has notified the British Ambassador that the United States would be glad to negotiate a treaty with the Canadian government looking to the construction of the Great-Lakes-St. Lawrence seaway recommended to the American Congress and Canadian Parliament by the International Joint Commission.

The action of the Secretary was a source of great gratification to members of Congress from the West and Middle West, who are supremely interested in this great waterway development. They see in it an assurance that the project will ultimately be approved by both governments and believe that it signalizes the earnestness of the administration to get behind the development and stay behind it until all international negotiations and necessary legislative chactments are concluded.

poppy First Choice
The poppy of Flanders, a household word throughout America, was the first choce. They say these poppies grow in fields where blood is shed. They flourish in the English wheat fields about Hastings, where William the Conqueror beat Harold off England 900 years ago in the last conquest of England. They cover the countryside in Flanders, where the English suffered their severest losses during the World War. There was no more than the merest scattering of poppies in the Argonne and about St. Mihlel, where the American doughboys beat back the Germans.

Moreover, this poppy is not a native of America. After its adoption by the Legion, it was brought into the country in considerable quantity, and then some experts put out the information that it was likely to spread so fast as to become a past. The harassed American farmer came forward with a protest at agoe, announcing to all the world that he had already had troubles aplenty with a protest at agoe, announcing to all the world that he had already had troubles aplenty with a protest at agoe, announcing the all the world that he had already had troubles aplenty with a protest at agoe, announcing the all the world that he had already had troubles aplenty with a protest at agoe, announcing the all the world that he had already had troubles aplenty with a protest at agoe, announcing the latter of the second of a falling market, let alone poppies.

DAISY IS EMBLEM
Therefore, the Legion in its third national convention last fall chose the American daisy for its emblem. The choice has met wide approval. It is a perennial and thrives under almost any conditions. Children and to prove the series and the world war. The crimson of sacrifice that stains its petals will serve as a long reminder of the struggle and the victory.

early Sunday morning is commencing to lift.

In fact, when the hearing is held Friday morning in Justice S. H. Underwood's court, it is reported on good authority that the svidence to be intrduced will show that so far as the police are concerned, there never was any mystery as to who the man was who dashed into a waiting automobile and drove away as the squad of officers surrounded High and Goldworthy, since he is understood to have been and still is a member of the police force of Long Beach.

That the police effect took part in the burgiary will, of course, not be denied at the trial following the preliminary hearing, it developed today. It is understood that the officer in question, a new man on the force, working in plain elethes on special detail, was approached and asked to join in the job of hauling away the creamery safe, which contained \$1200 at the time. It is reported that the District Attorney's office here was consulted and the officer advised to accept the offer and tip off the department when the job was to be pulled, which he did and which resulted successfully in the arrest of Sligh and Goldworthy, who are charged with the crime.

Two doors—one outside and one inside door—of the creamery had been broken open, and the 300.

Grisham Garrard, 24-year-old employee of the Drew Carriage Company, 216 North Euclid avenue, who suffered a serious fracture of the skull Tuesday when a heavy tractor plow which he was assisting to move at one of the Drew warehouses, toppled over and struck him on the head, died shortly before noon today at the San Antonio Hospital.

An operation was performed yesterday in an effort to save the young man's life and for a time his condition seemed improved, but took a sudden turn for the worse this morning.

The Coroner's jury following the inquest this afternoon, before Coroner J. B. Hanna at Draper's morgue, brought in an open verdict. The young man was unmarried and made his home with his father, S. M. Garrard, pioneer rancher of the Cucamenga district. He is also survived by five sisters and one brother. The funeral will be held Saturday morning at 10 o'clock from Draper's chapel, with the Ontario Elks' Lodge in charge. Interment will be in Bellevue Cemetery.

Growing Population Creates Countless Needs

Among the more than a million inhabitants of Southern California, several thousand new wants of a kind that can be satisfied only through the agency of a great want-ad clearinghouse, originate each week.

Young folks are growing up; families are shifting about, and new people are arriving at an estimated rate of over 15,000 per month.

Every week hundreds of families must be located in vacant flats, rooms and apartments; houses must be furnished; new arrivals must be supplied with suitable business openings; automobiles, building materials, books, machinery, musical instruments, poultry, yachts and every imaginable kind of goods must be bought, sold, exchanged, repaired, moved or otherwise made the basis of business transactions.

A MORATORIUM

A MORATORIUM

So many Los Angeles bankers are in attendance at the Del Monte convention that the financial district is seriously depleted of its leadership this week. The convention program is almost without thrill, and there are no election contests, but the golfing is said to be excellent. In general business and investment circles there is a tendency to postpone commitments and take in sail until after the holidays. The fact that Memorial Day falls on Tuesday offers ample excuse for a three and, in many instances, a four-day moratorium. Saturday is a short day, anyway; Monday, by common consent, will also be observed, and Tuesday is the actual holiday, wherefore many are planning to desert their desks on Friday afternoon not to return until Wednesday morning. The banks, of course, will only observe Tuesday. The Los Angeles Stock Exchange will be closed from Saturday noon until Wednesday, and business from Back Bay to Point Loma will take a deep breath before plunging into a new phase, a phase which actually marks the approximate end of the readjustment period and is the forerunner of better business and a broader vision.

COPPER COMING BACK
Copper, in the doldrums for so
many menths, is showing signs of
acceleration, and none of the basic
industries are gaining momentum
faster than this. Part of this improved status is due to great expansion among public utilities, and
it is estimated that extensions for
trolley, lines, telephones, hydroelectric and other electrical power
plants will call for an expenditure
this year of fully \$1,000,000,000,
Copper prices are already hardening; mines are again in active production and those in touch with
the situation believe that 15 cents
before midsummer is a certainty
and 16 cents a probability. At
these prices the production of copper means profit, and will have a
stimulating effect upon the industry and upon business at large.

NATIONAL BANK OF TACOMA, Tacoma, Washington, Trustee.

We summarize from a letter addressed to us by J. L. Carman, President of the Company, as follows:

USINESS: The Carman Manufacturing Company is the outgrowth of a business started in 1889 and incorporated in 1891 with a capital of \$15,000, the present capital with the exception of \$10,-000 additional money having been earned in the business. The Company operates factories at Tacoma, Seattle, Spokane, Washington, and Portland, Oregon, for the manufacture of furniture, iron beds, spring beds and mattresses.

SECURITY: These notes are a direct obligation of the company and comprise its sole funded debt. The net quick assets as shown by their financial statement, after giving effect to this financing, amount to \$759,709.31, or two and one-half times the note issue, and total net assets available for these notes amount to \$1.251.-852,61, or over four times the note issue.

EARNINGS: Net profits for five years ending December 31, 1921, applicable to interest charges after all deductions, including depreciation, Federal and State taxes, as well as heavy charge-offs in 1921 for adjustment of merchandise values, have averaged three and one-fourth times the maximum annual interest charge of the

S OUTHERN Illinois Light and Power Company, will, upon the completion of the construction contemplated, funds for which have been provided for, and from the proceeds of the present financing, own and operate electric properties serving a population, estimated at over 265,000, in fourteen counties in Southern Illinois. The territory is rich agriculturally and thoroughly diversified in industrial development. The properties will include electric generating stations with a capacity of 16,350 kilowatts, four gas plants with a capacity of 3,800,000 cubic feet per day, five ice manufacturing properties in East St. Louis, Hillsboro and other towns, and water system in Mt. Vernon, together with 486 miles of high voltage electric transmission line. The growth of the Company, as well as the industrial growth of its business field, is well indicated by the fact that the gross earnings of the Company increased over eleven fold since 1913.

Capitalization (As of March 31, 1922, after giving effect to new financing)

A DDITIONAL First Lien and Refunding Bonds may be issued only to refund underlying bonds now outstanding in the hands of the public, to refund bonds issued under

of the public, to refund bonds issued under this mortgage, or against the deposit of cash, or for additions and improvements under conservative restrictions as to equity and earnings. In the opinion of counsel, these bonds are secured by a direct mortgage lien on all properties, rights and franchises of the Company now owned or hereafter acquired, subject only to prior liens aggregating \$5,223,800. Moreover, these bonds will be secured by a deposit of approximately 34% of all First Mortgage 6% Bonds, which have been certified; and all additional underlying bonds, subject to certification from time to time, must be deto certification from time to posited thereunder.

Earnings

The proceeds from the sale of the present issue of \$1,200,000 First Lien and Refunding Series "A" 7% Gold Bonds will provide part of the cost of acquisition of the properties and business of the St. Clair County Gas & Electric Cq. of Illinois, under the approval of the Illinois Commerce Commission. This property has an appraised physical value of \$4,686,651 against which there are outstanding \$1,880,000 divisional bonds. The transaction will result in the adding of approximately \$1,700,000 of security in physical property to the equity already existing above the total bonds outstanding.

Based on the appraisal of independent engineers, completed in 1919, plus addition to March 31, 1922, and including the property to be added with the proceeds of this financing, the plants and properties of the Company will have a replacement value, depreciated to date, of approximately 55% in excess of the total bonded debt including this issue.

There are several pieces of new international business in sight on which bankers are working at the moment, and which the hope to bring to the New York market and introduce before the bond market loses its snap. Negotiations have been started on a brand new piece of Argentine financing, which, however, has not passed the preliminary conversation stage. Among the other countries named are Switzerland and one of the British eofonies. The Zurich loan to be internationally offered may new await the improvement of the London market; the Bolivian business of \$24,000,000 has been signed and awaits only formal announcement, while two or three other smaller loans are developing.

OIL PRODUCTION

The daily average gross crude oil production of the United States increased 7300 barrels, according to the weekly summary of the American Petroleum.

According to the institute, the imports of petroleum (crude and refined oils) at the principal United States ports for the week ended May 20, tetaled 3,075,950 barrels, a daily average of 425,294 barrels, compared with 3,883,200 barrels, a daily average of 412,600 barrels for the week ended May 13.

California oil production continues to increase at a rate that is out of proportion to the other fields of the nation. It is worthy of note that of the increase of nearly 15,000 barrels reported in average daily demestic crude production during the week ended May 13, over the previous week, 16,000 barrels were in California fields.

Survey. Enter of the State of the State of State

Safety—the Best Buy In the Market

WHEN all is said and done, safety is the best buy in the market for every investor. Conservative men and women who wish first of all to keep their capital safe from loss, realize now as never before that safety, security and prompt payment of both principal and interest in cash are more to be sought than the promise of a large interest yield, or the speculative chance of increase in market value.

> This is why Straus Bonds make such a powerful appeal to prudent investors. Current events have clearly shown that this is no time to trifle with the safety of invested funds - to seek an exorbitant income yield on one's money at the sacrifice of safety.

Our booklet, "Forty Years Without Loss to Any Investor" will tell you why Straus Bonds offer the best interest rate consistent with safety. You cannot afford to delay in posting yourself fully on these safe securities. Call at our office or tear off the coupen below and send for the booklet today.

We Furnish Even the Color Schemes

All you need to supply is just the desire to beautify your home

Bring that to us and we'll do the rest—help you decide on the color scheme, show you precisely how to execute it, and supply you with materials whose quality has been proven in thousands of homes. Your painter may expect the same co-operation.

Such famous Mathews specialties as Plastons French Gray for the walls or a plain gray Wall Paper, Permolite Gray Eggshell for the woodwork and varnishes from our extensive stock for the floor would figure in the color scheme given above.

LAN'S LEADERS MOVE TO BLOCK PROSECUTION

Mysterious Visitor from Imperial Palace Here to Oust All Kleagles is Report

The "Invisible Empire," Knights of the Ku Klux Klan, Inc., yesterday came out into the open and took steps to pro-

tect itself as a national organization from possible proported to be scheduled against it in California.

This was learned by the Times ed order here that the special who it was admitted by persons emissary from the Imperial Kiencillum, who arrived in Los Angeles closely associated with the hood-

dreds of thousands of dollars, if necessary, to keep its record clean here.

The grand jury indictments in Kern county, involving officials of the Klan and Klan members, the report of the Kern county grand jury, and the developments brought about by the Los Angeles county grand jury investigation under the direction of Dist.-Atty. Woolwine, Chief Deputy Doran and Dept. Dist.-Atty. Turney are said to be the factors that caused the determination to fight back in California.

The secret maneuvers regarding the legal aspect facing the Klan were accompanied by a sensational statement made by Edward Young Clarke, Imperial Kleagle and Imperial Wigard, pro tem., in Atlanta yesterday.

Following his announcement that

Clarke, Imperial Kleagle and Imperial Wigard, pro tem, in Atlanta yesterday.

Following his announcement that every Kleagle in California, including King Kleagle G. W. Price, lost his commission pending an investigation, Imperial Kleagle Clarke issued a statement in which he practically branded the membership in California as having failed to live up to the principles of the organization and placed the responsibility for what actually did occur in this State on the organizera.

Ten-Million-Dollar Consolidation to Give Our Harbor Great New Mills **Employing Many Thousands**

Following several months of negotiations, carried on in Los Angeles and in Europe between local business men and English capitalists, details were announced here yesterday of a deal consummated which involves the consolid British Columbia industrial concerns with two local plants, the formation of a new corporation with a capitalization of \$10,-000,000, and the utilization of the seventy-acre plant of the Los Angeles Shipbuilding and Dry Dock Corporation at Los Angeles Harbor for a gigantic new industry which will employ several thousand workmen. The new consolidated plant will operate lumber mills of all kinds, a fleet of lumber vessels with

this as home port, and many other allied activities.

These facts were brought out ate a special meeting of the stockholders of the Los Angeles Shipbuilding and Dry Dock Corporation, held yesterday afternoon. At this meeting the plan was presented by Fred L. Baker and Erle M. Leaf, president and vice-president, respectively, of the company, and received the full approbation of the stockholders.

received the full approbation of the stockholders.

The plan calls for the immediate organization of the new corporation, through which these interests will be consolidated. This corporation will be in the nature both of a holding and an actively operating company. It will acquire the properties and assets of the Massett Timber Company, Ltd., of Canada, the Puget Sound Box Company, now in operation under the management of F. L. Buckley, near Seattle, and the Western Marine Supply Company, a subsidiary of the shipbuilding company.

sidiary of the shipbuilding company.

Immediate benefits will be derived from its activities through the steady increase of employment at the harbor plant of the company. This force will be engaged in the construction of six or more steel iumber schooners, the erection of sawmills and box shook, shingle and lath factories, together with the operation of all these units at the plant as a local wholesale and export lumber industry in combination with all the other sawmills and a great logging plant on a vast tract of virgin timber land in British Columbia.

Big Company to Employ Thousands of Men

Work on Local Plants to Begin at Once

(Continued from First Page)

Vancouver, B. C., with western associates and in co-operation with Scotch and English owners of this valuable tract, organized the Massett Timber Company, Ltd., and at and expenditure of over \$2,500,000 for extensive plant, sawmills, logging and other necessary equipment on Graham Island, developed a big lumber production to meet the urgent need of the British government.

The plant became particularly well known through the quality and volume of its spruce timber, classified by the trade as airplane spruce, which it shipped for airplane construction to the British and French armies. The Allied armies drew their spruce for use in building airplanes, from a total of over 400 sources of supply. Mr. Buckley's company, however, is credited with having shipped to them a greater volume of this important material than that from all other sources combined. Through its shipment during and since the war, the Massett product has been regarded as consistently showing an unusually high per sentage of first quality timber and its easoned cedar, in particular, is in increasing demand among the trade because of the high finish it takes when used for fine interior work. Mr. Buckley, who is said by his associates to have been mainly responsible for the success of the Massett company, will be a director and hold an executive position with the new corporation, sharing with the shipbuilding company's officers the management of the corporation's affairs.

OWN STEAMER LINE

For the transportation rough sawn lumber from Columbia to Los Angeles : as well as for the transpor-the finished product to columbia to Los angeles riarror, as well as for the transporting of the finished product to Pacific Coast and other markets, the new corporation, will maintain its own line of vessels, and to this end it purposes building six or more large steel lumber achooners of the most modern type. These vessels are to be constructed at the ship-yard, and it is understood that keels will be laid and construction work pushed as fast as plans can be prepared and building ways made available.

In addition to providing every facility on its seventy-acre arbor site for the development of a large wholesale lumber business, a shingle mill will be built, and a box "shook" factory erected immediately to supply the demands of the California market and especially those of Southern California fruit packers, with the same class of product as is put out by the Puget Sound Box Company at Seattle, and which now will be part of the combination.

and which now will be part of the combination. While no definite figures can be obtained as to the increased employment which the new activities will provide, the construction of lumber schooners, the erection of sawmills, shingle mill and box factory and the operation of all of these, in combination with the logging and sawmill plants in British Columbia and the box factory at Seattle, should together call for the work of several thousand men. Added to these new plans for the local shippard, its regular ship repair and drydocking work, the manufacture of tractors in its machine shops for the Kroyer Motors Company and the construction of two steel ferry boats for the Kry Route System at San Francisco, for which contract was recently awarded to the ship-

THE DIPERIAL POOR BAR SPEAKE

Come of the most convenient and practical methods of "fighting to the last ditch" is to make a rapid movement rearward, hunting for the last ditch, leaving the rest of the boys fighting in the first ditch.

That seems to have been the method adopted by the Grand Chief Pooh Bah of the Ku Klux Klan, who has coolly discound the Kun members who took part in the inglewood affair; and has demoted and reduced to the ranks a distinguished horde of king kleagles and emperor kleagles and grand assistant grooms of the back stairs. In making the sweeping order yesterday which orphaned the night-riding crusaders, Imperial Klaliff Edward Young Clarke issued a solemn ukase in which he said, among other things, that they will fight to the last ditch for something or other—it isn't very clear just what; and he added:

America sorely needs the Ku Klux Klan, but it does not need any organized body of men anywhere of any kind who may have in their souls the belief that they have the right to take into their own hands the execution of law.

All of which is a highly commendable

ewn hands the execution of law.

All of which is a highly commendable step in the right direction; but it doesn't seem to leave much thrill to knightheed in the invisible Empire.

Far be it from one on the cutside to attempt to assess the benefits and secret joys that figod the soul upon payment of the initiation fee in the Ku Klux Klax.

A rough outside survey of the situation, however, would seem to indicate that there wouldn't be much fun in being a knight of the invisible Empire without being able to wear a nightie and a hood and clatter around the country scaring colored people and foreigners and occasionally hanging some poor wretch to a tree.

some poor wretch to a tree.

The impression that the Imperial Klaliff leaves, as he retreats with the only lifeboat, is that the Ku Kux Klan is a highly boat, is that the Ku Klux Rish is a significant conservative organization which consists of orderly citizens gathered together to read papers on the best manner of dealing with the outfall sewer; what ought to be done about the parking ordinance and how to insure the safety of milk bottles left on

The most charitable way of looking at this whole affair is that a number of romantically inclined and possibly well-meaning citizens persuaded themselves they were doing a noble deed in arranging a childish silly tick-tack party: riding out upon a demonhunting expedition by the light of the inconstant moon down in Inglewood. No. 194—The Seven Coins

Draw a diagram as illustrated above. Take seven pennies and lay one on any one of the lettered points. Push it along either straight line to another lettered point and leave it there. The procedure is repeated with the remaining coins, but it is not permissible to staff a coin from a point already occupied. You have no difficulty in placing all the coins, but when a spectator tries it he will invariably find no available starting point for the seventh coin.

The Daily Fun Hour.

There should be two trays, each containing half as many cards as there are players. The cards in both trays should match. Each card is inscribed with the name of a "circus animal," such as elephunt, lion, camel, snake, eagle, bear, etc. Each of the girls takes a card from one tray, the men or boys draw cards from the other tray. Then each in turn holds his card up and calls, "Tiger!" "Bear!" etc., and when the girl holding the duplicate card answers "Here!" he claims her for a partner.

When the music begins all couples face each other and form lines, the girls in one line, their partners opposite, with four feet of space between the lines. Then the head couple, imitating the "circus animal" both have drawn, "A Homemade Cleanser"

corrust animal" both have drawn, dance down the line and back, humped like camels, wriggling like snakes, or whatever action the animal-name seems to demand. If the players are young enough for more absurd frolics they may also mimic the "volces" of their allotted animals. When the head dancers return to place the second pair dance down the line and back, doing their special animal stunt; then the third couple, and so on until all have danced in the sile.

Lastly, the players march two by two, then form a ring, in carousesi order, each. "pair of animair going around, hand in hand, doing skipping dance steps to lively music, with gestures suggesting the characteristic motions of the animals represented.

Reorganization Sale

Reductions of 20% to 50% Attract Thousands

—There can be no cessation of interest and enthusiasm in Blackstone's REORGANIZATION SALE as long as the sale continues.

—Because, by this time, everyone realizes that every piece of merchandise in the Blackstone stocks is being offered in the REORGANIZATION SALE at clean-cut reductions ranging from 20% to 50% off marked prices, which are in many instances previously reduced prices.

-Therefore, from all points of the compass, thousands of customers are coming again and again to take advantage of savings that have never been equaled, and that are not likely ever again to be duplicated.

Naturally, many stocks are showing the result of heavy

served three terms in the Ohio penitentiary at Columbus and one at Folsom in this State. He is charged with robbing the San Jacinto postoffice in Riverside county on the night of Dec. 28, 1916. The amount of stamps and money stolen from the San Jacinto of Stamps and money stolen from the San Jacinto office was \$1716.74. When Sharkey, as defense witness, was asked about his Ohio criminal record, he had to give it in spite of the objections of Frank E. Domingues and Capt. W. T. Helms, counsel for the defense. Tom was "all dolled up" for the occasion. His iron-gray beard had been trimmed, and his hair had been trouched with henna to destroy the ravages of time.

"You're wanted on deck," said health.

W. T. Helms, counsel for the defense.

Tom was "all dolled up" for the occasion. His fron-gray beard had been trimmed, and his hair had been touched with henna to destroy the ravages of time.

The defense was an alibi, and Tom declared he knew nothing about the robbery of the postoffice at San Jacinto. Asst. U. S. Atty. Herron wasted but little time on cross-examination, and even some of the jurore yawned and smiled while Sharkey was talling his story.

Student Cast Gives Famous Drama Here

"The Electra" of Euripides was given by students of the Southern Branch of the University of Callfornia last evening in Milispaugh Hall, the university's auditorium.

Miss Evelyn Thomas directed the play and a large amount of the success which was won by the actors was due the way in which they had been coached.

Two performances will be given, one tenight and see tomorrow afternees,

as the boys say."

All this while he was ransacking the galley for food, and cramming such as he found into his ravenous mouth.

"And so, Jim," said he, "you wouldn't take your medicine like a man? You were so damned fond of those yellow friends of yours that I thought you'd like to go with them wherever they've gone."

"Was it poison you gave them?"
I faltered.

"Was it poison was and he siapped his thighs as if an excellent joke had been passed—"and what would we give them—soothen the sea; in a corner, that saffaid I cried a little, what between horror and fear. For I gould not but think that my own end was mear at hand. And almost I wished that' I had drunk of the poison lest a worse fate befail.

Presently Keisey poked his head in at the door,

"Keisey, sir," said he, "to report that the ladies has been secured."

"Well not Bees, sir," and they set me their love, I calculate."

"Well not Bees, sir," and they set me their love, I calculate."

cut the ropes which bound me.

"You're wanted on deck," said he.

"Why?" said I.

"To help throw the dead overboard," said he. "The forecastle's all cluttered up with them, and so's the cabin."

"Bessie!" I half asked.

"Still showing fight," said he.

"My God, man, you're not in love with the woman, are you? Because if you are—well, damned if I don't begin to feel sorry for you," "When are you guing to finish with me?" I asked.

"Why, this is my plan," he said in a confidential tone, "and you'fl agree it's a good one. We're going to lay a course for Rie, and some time between now and landfall we shall expect you to make yourself scarce. That's all. God knows, I've got enough murders on my conscience to last me, and I don't want another. So, Jim, any time you don't like your company you can either get a prescription from the doctor or—jump."

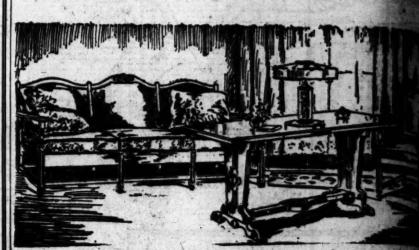

"Thank you," I said.

"And meanwhile," said he, "you will be free day times to go and come as you like; to eat with us, and to steep your sense of the plcturesque in such bacchanalian scenes as are liable to occur from time to time. Boys will be boys!" said he. "And now let us bury the dead!"

battle is fondly anticipated by the fans.

In Bud Teachout, Pranklin has one of the most consistently effective pitchers ever turned out by a local school. Throughout the season he has fanned an average of eleven batters a game, and is expected to keep up the good work against Hollywood today. In addition to his ability to toss a mean set of twisters. Teachout can handle a bat in a manner to create excitement, and is altogether a mighty handy person to have on a team.

FAITH IN O'BRIEN

Hollywood's supporters are laying their hopes on the delivery of Ray O'Brien. While O'Brien is not claimed to be in Teachout's class in the business of pitching, he has helped materially in putting Hollywood on the baseball map this season for the first time in many years. O'Brien's record is due to a great extent in the backing he has had. Coach Ward's infield is one of the classiest in the survounding territory, and has stopped many a bingle that would have been a hit in almost any league. Ability to take advantage of the breaks as well as to handle the ball has been the making of the Hollywood nine this year.

Today's doings are scheduled to commence promptly at 3:15 p.m. FAITH IN O'BRIEN

Rain Prevents Last Workout for Huntington Beach Track Squad, Doped to Win National Meet

[EXCLUSIVE DISPATCH.]

CHICAGO, May 25.—Heavy rain throughout the afternoon today vented the extensive working out that was planned for the California marvels who have come to Chicago to participate in the University of Chicago national interscholastic, although/the native sons put in a profitable afternoon in indoor tutelage under their coaches. Comparison of the records presented to officials of the interscholastic by the five Huntington Beach athletes indicates that these lads not

shatter several of the existing records of the world's largest interscholastic.

Bill Kerr, senior member and captain of the outfit, thus far is the favorite in the mile event, although Cox of Rochester, N. Y., is another lad who will undoubtedly be a strong competitor for honors in this affair. Bud Nash, two-year holder of the California State record in the broad jump, bids fair to outfo his previous mark of 22 feet, 6 inches, in the present meet, his precontest workouts showing him up to snuff in jumping form.

Charles Bickmore will probably set up a new mark for the meet. His record of 12 feet 4 inches in the pole vault is as yet unprecedented.

Milton Nash will likely place in the 440-yard dash, his time being 52 flat, a phenomenal pace that will prove a winner unless a dark will prove a winner unless a dar

the pole vault is as yet unprecedented.

Milton Nash will likely place in the 440-yard dash, his time being 52 flat, a phenomenal pace that will prove a winner unless a dark horse gallops out ahead unsuspectedly.

Hirschell Smith, the San Fernando High lad, who was not in the best of trim immediately after his lengthy journey, has recovered from his stiffness and is all primed for the events in which he aims to win, the 100-yard dash, which he does in 10 flat, and the 220, which he scampers in 22 3-5 seconds.

FITTERY HEAVES

Probably every college football sleven in the Southern California afference has a double-barreled ambition, one load of which is aimed

arily, the several elevens in the conference probably are repped for the title in their won league, but there is present that mawing aspiration, even though it be nursed in escret, to rise up and, was the Troian titan, which in recent years has somewhat outgrown as immediate neighbors on the gridiron.

While the weight of numbers is with U.S.C., this may some time

While the weight of numbers is with U.S.C., this may some time happen, as witness the case of David vs. Goliath and of Centre vs. Harvard. Last season it was the Whittier Poets who provided the Trojane with the stiffest southern opposition, and, the season before, Pomona, who gave them the hardest battle on the local calendar. No diagrace to be walloped by an eleven which took the measure of Washington State and the Oregon Aggles.

Down among the oak trees at Claremont they are looking forward with considerable anticipation to the fall tanbark struggles Last season U.S.C. rolled up a greater score against Pomona than ever before was registered against an eleven coached by the very able Eugene Nixon. And, as far as we can learn, Mr. Nixon dosen't intend that this shall happen again, if it can be prevented.

Two things reminded me of Pomena Collega. One was a letter from there and another a recent drive through there. Something quite bewitching about that leaf-laced campus. In traveling from New York to Philadelphia, whenever, from the car window, I would see the domes of Princeton among their sequestration, it would remind me of Pomona College, and then of Southern California, after which I would take an earnest and profound vow to leave there for this place

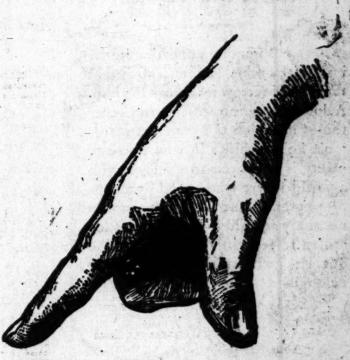

I would take an earnest and protound you to leave there for this place five minutes after the season's last game.

They ought to produce a lot of high-proof college spirit down there among the trees all to themselves, and I guess they do. Prospects are said to be excellent. Letter men returning are Bill Haughton and Braven Dyer, ends, and, oh, boy, they can play end; Clio Thomas and Brainerd Dyer, guards; Herb Mooney, center; Orlyn Robertson and Harry Bowman, tackles; Ray Wilson, captain-elect and quarter; Glenn Doughty and Lewis Leezer, halfbacks, and Eugene Kennedy and Lee Collins, fullbacks.

Macy Chambers, a two-year man at guard, who was out of school last year, is planning to return and will add a lot of class and weight, as those who have seen him in action can testify. Of the foregoing, all except Wilson are one-year veterans and should be approximating their best form this autumn. This will be Wilson's third year. Charley Dags, a letter man last season, and track star, is no longer in school and will not return. Macy Chambers, a two-year man at guard, who was out of school

Weaving the Spell of Smiles

Mr. Poel, who by the way has changed the spelling of his name to Pole, to avoid being confused with his uncle William Poel, noted interpreter of Shakespeare, has been presenting an adaptation of Dostoievsky's novel, "The Idiot," at a series of matinees. The production has been attracting the interest of prominent critics, who have devoted long articles to the dramatic content of the play and the acting.

The adaptation was made by Cowper Powys and Mr. Pole himself. The play has been given at the Little Theater. In the cast, beside Mr. Pole, have appeared Estelle Winwood, Thurston Hall, who created the leading role in "Civilian Clothes" at the Morosco Theater here, Moffett Johnson, Margaret Mower and others.

Mr. Pole's own work was described by one critic as revealing genuine poetic feeling and technical fluidity. He was said to possess a musical ear, good diction and and air of great cultivation.

It is not his intention to relinquish the place he has made for himself in the eastern metropolis, for next fall he intends to return and do a series of Shakespearen performances.

He will, however, spend the summer in Los Angeles, arriving here sometime in June. Mrs. Pole is hers now.

It is possible that he may present "The Idiot" locally during his stay, at the Egan Little Theater.

HAST ENGAGES SPACE AT PINE ARTS STUDIO

The opening guns of the Halperin Productions Company, re-cently formed, with Walter Hast, perin Productions Company, recently formed, with Walter Hast, noted New York and English producer, as supervising director, will be fired Monday. Halperin Productions will begin its first productions will begin its first production at Fine Arts studio, where studio space has been rented. Announcement of plans was made yesterday by William Abramson, general manager.

The first picture by the Halperin organization will be called "Goblin Point." The story is by Victor Halperin, formerly a magazine writer, and at one time associated with Eibert Hubbard in conducting the Phillstine Magazine.

Lloyd Ingraham has been engaged to direct the picture, under supervision of Mr. Hast. Carmei Myers will be starred and the supporting cast will include William P. Carlton, Joseph Dowling. Vernon Steele and Buddy Boyle. Roy Fisher will be the cameraman. Interiors will be made at the Fine Arts studio, but exteriors and location work are to be done at San Pedro.

"Goblin Point" is to be the first of a number of pictures to be produced by Halperin and Hast. Later "Goblin Point" is to be dramatized and put on the stage with the same cast.

Mir, Hast's activities, as hereto-

cast.

Mr. Hast's activities, as heretofore announced, are to extend to
the securing of a theater in which
to stage a number of plays to
which he has the rights, and later
to the building of a new theater,
a site for which is now being nesociated.

"Now things are different. Now it is the funny situation that creates the laughter, and personality counts. The comedy is on a much higher plane than formerly Personal touches and human incidents taken from everyday life bring laughter today. Comedy must be clean and wholesome and the comedian must be neat. Also the 'gags', funny pieces of business, as they are known in the comedy studio, must be original. That's why the making of comedies is so dimicult today."

Buster has completed three fun films, "The Blacksmith," "The Frozen North," and "The Electric House," all of which will soon be released.

Wray Finishing Special

Pohn Griffith Wray expects to complete "Someone to Love." C. Gardner Sullivan's circus story, before June 1. This feature, with Madge Bellamy, Cullen Landis and Noah Beery in the cast, will be an Ince special release for next December.

KEATON RELATES

COMEDY SECRETS

Buster Reaton, who has been in the comedy end of motion pictures for five years, rising from an extrato a star, has made some observations on the making of fur films which are interesting.

"You cannot compare the successful comedy of today with the one of five years ago," sals the First National star. "There is a great change. The reason for this is that the people have progressed and don't care for the slapstick methods that were in vogue then.

"To create laughter five years ago all that was necessary too, for one to accentuate personal appearance to the point of grotsqueerss. That sort of thing designated a comedian, and people expected the man who was dressed in outlandish costume to supply the laughs.

"Now things are different. Now it is the funny situation that the funny situation that the funny situation that the point of grotsqueerss. That sort of thing designated a comedian, and people expected the man who was dressed in outlandish costume to supply the laughs.
